SOUTHERN QUEEN COMBINATION GRATES *and* FIREPLACE FURNISHINGS

PECIAL pains have been taken to arrange this catalog so as to be of valuable service to the buyer of Combination Grates and Fireplace Furnishings, and we feel confident that, if you will familiarize yourself with its contents, you will be convinced that we have the superior assortment and that Southern Queen Fireplace Grates and Furnishings will meet your requirements for homes from the simplest to the most elaborate.

The Southern Queen Grate possesses an individuality in domestic and commercial circles which is without rival.

During the thirty years that Southern Queen Fireplace Grates and Furnishings have been on the market we have made an unceasing effort to manufacture the best fireplace grates and fixtures that first-class material and skilled labor, with the aid of the best factory facilities, could produce.

SPECIAL NOTES

SOUTHERN QUEEN Combination Grate Frames are furnished in two Standard sizes, 16 and 17-Tile.

The 16-Tile size measures 24 $\frac{1}{2}$ inches wide and 30 $\frac{1}{4}$ inches high, outside measurements.

The 17-Tile size measures 30 $\frac{1}{2}$ inches wide and 30 $\frac{1}{4}$ inches high, outside measurements.

The Standard size openings are 18 inches, 20 inches and 24 inches; however, No. 416 (page 33), No. 816 (page 22), No. 916 (page 33), have 16-inch openings.

Odd size fire-place openings can be fitted with Wrought Iron Frames, illustrated on page 44.

The crown or ash screen for grates with three-quarter summer fronts are finished in the same finish as the frame and summer front. However, when the summer front extends to the hearth the crown is always finished in black.

Our Plating Department has every late and improved equipment for finishing SOUTHERN QUEEN Fire-Place Grates and Furnishings in the best possible manner, which, together with our superior foundry facilities, is largely responsible for the goods shown herein being the most popular line of Fire-Place Furnishings on the market.

All Ornamental Grates shown in this catalog can be supplied in any style of brass, copper or nickle finishes, or black. In ordering always state what finish is wanted.

All goods are sold f. o. b. cars Chattanooga, or Boyce (our factory depot), Tennessee, and are shipped at buyer's risk. We will not be responsible for breakage or loss in transit.

TERMS: 60 days net, or 2% discount for cash in ten days.

Broken goods should not be returned as they are not worth the cost of return freight.

ABBREVIATIONS FOR FINISHES IN WHICH PLATED GOODS CAN BE SUPPLIED

W. I.—Wrought Iron or Black	F. G.—Flemish Gray
B. C.—Bright Copper	A. B.—Antique Brass
A. C.—Antique Copper	O. B.—Oxidized Brass
O. C.—Oxidized Copper	N. P.—Nickel Plated
B. B.—Bright Brass	O. N.—Oxidized Nickel
	B. A. B.—Burnt Antique Brass

When dull or brush brass finish is desired, abbreviations should not be used. We do not recommend these finishes.

When an order for an upright section of a frame described as "RIGHT" or "LEFT," we will understand that the "RIGHT" piece is the one at your right when facing the grate.

THE HAMILTON GRATE

The New Improved Portable or Set Grate

HE HAMILTON SET GRATE, shown on pages 6 and 7, is an improvement over all other Set Grates and has more desirable features than any Grate on the market.
Will burn either soft or hard coal or coke.
Made extra heavy for long service.

The double-draft dampers have balance weights, making them easy to operate, and they can be left open any width desired.

The Summer Front rests on the crown and covers the basket when in position. We were the originators of this type of grate front.

There is space between the basket and crown for ashes to pass to ash pit, assuring a clean hearth.

The crown has draft damper for controlling the fire. It is extra heavy and sets firmly on the hearth independent of the frame.

The Shaker Bottom is extra heavy and extends lengthwise across the firepot; easy to shake and easy to clean.

Unlike all other Set Grates, no special key is necessary for shaking or dumping the bottom. An ordinary poker is used for this purpose.

The Shaker Arm, which is so unsightly in other set grates, is concealed, and is reached by passing poker between basket and crown.

The Firepot is lined with best grade fire tile, which can be easily replaced by taking out the removable jamb plates. Hamilton Grates are new and original designs. They are triple plated and highly polished, or finished in wrought-iron black.

SPECIFICATIONS:

Outside width of back, over all: 24-inch grate, 25 inches. Outside width of back, over all: 20-inch grate, 21 inches.

Size of firepot: Front 24, back 19½, depth 10 inches.

Size of Firepot: Front 20, back 14, depth 10 inches.

Outside depth of grate, over all: 14 inches.

 IN THE following pages is shown the largest and most exclusive line of Combination Crates made by any factory, varying in designs from the most simple to the most elaborate.

A Combination Crate consists of Frame, Summer Front, Basket and Ash Screen or Crown. When a Crate has three-quarter Summer Front resting on the Crown, the Frame, Summer Front and Crown are plated and Basket black. When the Summer Front extends to the heart, the Frame and Summer Front are plated, and Basket and Crown black.

All Ornamental Crates shown in this catalogue can be supplied in any style of Brass, Copper or Nickel Finishes or black. All Combination Crates carry baskets 7 inches deep, unless otherwise specified, and with the exceptions of Nos. 416, 418 and 420, the Basket bottoms are corrugated.

All patterns of Combination Crates having full length Summer Fronts can be supplied as Frames and Summer Fronts only.

Combination Crates 16 Tile with Full Cast Iron Summer Fronts, pages 21, 22 and 23.

Combination Crates 17 Tile with Full Cast Iron Summer Fronts, pages 24, 25 and 26.

Combination Crates 16 Tile with Three-Quarter Cast Iron Summer Fronts, pages 27, 28 and 29.

Combination Crates 17 Tile with Three-Quarter Cast Iron Summer Fronts, pages 29, 30, 31 and 32.
